Public service workers are the backbone of our communities, providing the essential services that keep campuses, hospitals, and cities running every day. Yet UCSD has refused to work with us to prevent layoffs—pushing out dedicated employees and hurting our community. And the Federal Administration is attacking public workers, our jobs and our freedoms—slashing funding, filing frivolous lawsuits against public universities, and trying to take away our freedom to picket, rally and strike.

Our Union is standing up for our jobs and our freedoms. We're rallying for the dignity of Public Service workers, to demand UCSD stop the layoffs and reinstate the workers who've already been let go, and for fair contracts for UCSD workers!

Join the International Brotherhood of Teamsters' Public Services Conference attendees for this important rally!
